

SARVAC HWF

P/T Association Level Standard Operating Procedure (SOP)

Phase 6 - DEPLOYMENT

VERSION: 1 – March 2023

ADMINISTRATOR: Nicolas de Breyne

PURPOSE: The purpose of this document is to provide a P/T Association level SOP for the *DEPLOYMENT* Phase of SARVAC's HWF Program.

SUMMARY: The *DEPLOYMENT* Phase takes place once the HWF Responders have travelled from their points of origin and have arrived or will be arriving at a fully functional BoO within the AHJ.

PROCEDURE:

- 1. P/T Associations may assist with the assembly of their participating HWF Responders into Travel Teams.**
- 2. P/T Associations should be prepared for prolonged deployments.**

In the case of deployments of extended duration, future waves should be planned, developed, and coordinated to seamlessly integrate additional deployed HWF Responders into the response when required.

P/T Associations should monitor Situation Reports from the NIST Planning Section in order to remain aware of the status of the mission. They may need to query their members for their ability to participate in future deployment waves.

This completes the *DEPLOYMENT* Phase in accordance with the *National Search and Rescue Operations Concept*.
